# **GOLDFIELD IS ON** SUBSTANTIAL BASIS

Heavy Machinery Arriving With Which to Inaugurate Deep Mining System.

ERECTING MORE MILLS TO HANDLE OUTPUT

Prominent Properties Are Looking Better Than Ever Before in History.

W. H. Clark, who has been operating extensively in the new gold fields of Negada, came to Salt Lake Sunday to spend the holiday season with his family Mr. Clark has nothing but the highest words of praise for the great camp of Goldfield towards which treasure-house so many Salt Lake people have cast in-ieresting gazes, and into whose limits so many Salt Lake dollars have been pour-ing for the past many months.

Campaign of Deep Mining.

Campaign of Deep Mining.

The camp is looking better than ever before in its brilliant history, and the best pages of Goldfield's story are yet to be written. The mines that are being operated, and there is a remarkable amount of activity going on in all the great properties, show most encouraging nevelopments with increasing depth. Mining is being carried on, says Mr. Clark, at the greatest dopths ever reached. The camp has at the present time three mills that are running at full capacity both day and night, and there is a general air of prosperity and activity never before experienced in that locality.

Heavy Machinery Arriving.

Heavy Machinery Arriving.

Heavy Machinery Arriving.

Aside from the many mills contemplated, and several are now actually under construction, there is an enormous amount of heavy machinery being received by the various companies which are inaugurating a vigorous campaign of deen mining and along the right mining methods. The great dandstorm property is taking out better and more of it than heretofore and it is one of the star attractions of the district. The recent and encouraging increase in the stock of Red Top is stated as being based entirely upon the merits of that property. This mine is showing a most wonderful array of values.

Jumbo Ruilding Mill

Jumbo Building Mill.

There is much activity being shown by the Jumbo people, and they are going to the 55-foot level before stopping This company is erecting a large number of buildings including ore houses and a mill. The January is taking out some very fine ores, and a large number of men are at work on this property. On the Kendail from the 150-foot level the company is taking out some enormously rich free taking out some enormously rich free gold that practically requires no sorting

Saint Ives Shows Up Well.

Saint Ives Shows Up Well.

On the Saint Ives, a property that has been idle for some time, there is an increased amount of development work going on, and this ground is showing an extent of values and ore bodies that gives it every appearance of being one of Goldfield's most prolific producers. There are more men now employed in the Goldfield district than ever before, and the camp is settled down to a working and solid basis. There are many strikes being made constantly, each new day adding some additional point or property to the list of the wonders that the district contains. Goldfield will give an excellent account of herself during 19th.

Litigation in Bullfrog.

Litigation in Bullfrog.

Mr. Clark states that there is a great deal of litigation being waged over the properties of the Builfrog district, there being very few companies in that region that are not tied up from troubles originating in grub-stake claims or difficulties in regard to title and boundary lines. These difficulties are forming one of the most serious drawbacks to that new and promising terpitory, upon the settlement of which the camp wait proceed upon its destined career. The advent of railroad facilities in Builfrog is anxiously awaited of which the camp destined career. The advent of railroad facilities in Bullfrog is anxiously awaited by the mining interests. With this means of moving both the shipping and milling grades of ore Bullfrog will soon make

Kawich Is Fairly Started.

The Kawlch country is reported as booming, there being a greater amount of work under way than one can imagine who visited that region in the earlier days of its history. For removed from water and the railroads, overshadowed as well by the many camps in Nevada more easily teached by prospectors and investors, the Kawich district has had a very eyere struggle in impressing upon the severe struggle in impressing upon the world the wonders therein that only waited intelligent effort to fully demon

waited intelligent effort to fully demonstrate themselves.

There is hardly a property in Kawich that does not afford its representation in a working way, the camp has grown from a lew tents to quite an important center, and many great discoveries will be recorded from this region within the year to come.

Venture Makes a Strike.

On the Venture group of claims, north of Kawich a few miles, there have been very encouraging developments during the six weeks that this property has been worked. There are two distinct veins encountered near the surface that show values up to \$400 per ton, and there is every indication that with depth these veins will be exceptionally large and strong.

#### UTAH-APEX VALUES.

Latest Shipment Illustrates Excellent

Condition of Mine. General Manager Orem of the Utah-Apex has received the returns from the late shipments from that property, which contribute quite largely to the reputation that this fine mine is establishing for it-self. Assays show the following results Gold. 55 ounces; silver, 256 ounces; cop-per, 548 per cent; iron, 323 per cent, in-scluble, 150 per cent. The Utah-Apex is responding most generously to the active campaign being carried on.

#### United Copper Dividend.

James A. Pollock & Co., bankers and brokers, over their private wire, are in receipt of the following dividend notice receipt of the following dividend notice from Boston:

"United Copper has declared a regular dividend of 14 per cent and an extra dividend of half of 1 per cent. Books close January 8, dividend payable January 8.

Legality of Coal Entry.

The case of Albert L Simons against Owen L Davies, brought to test the legality of a coal entry for 160 acres made by Davies in Emery county, is now on in the United States land office. Entries were made in sections 3, 2 and 10, township 24 south, range 4 east. A part of the evidence was taken yesterday and will be resumed this morning at 10 o'clock.

#### An Emergency Medicine.

For sprains, bruises, burns, scalds and similar injuries, there is nothing so good as Chamberlain's Pain Balm. It soothes the wound and not only gives instant relief from pain, but causes the parts to heal in about onethird the time required by the usual treatment. As it is an antiseptic all danger from blood poisoning is avoided. Sold by all leading druggists.

## COPPER GLANCE MINE **EXCEEDS ANTICIPATIONS**

Property Promises to Join List of Bingham Shippers Before Long.

Latest reports from the Copper Glance nine at Bingham, the scene of the recent strike, are of the most encouraging char-The management is drifting on a five-foot ledge in the tunnel, going through ore for a distance of forty feet. This tunnel has been driven about 1000 feet into the mountain, and is now being forced into a strong ledge that gave every indication on the surface of being an excellent one.

Tunnel Lined With Ore Seams. For quite a distance from the five-foot edge mentioned above the tunnel has proledge mentloned above the tunnel has proceeded through a series of ore seams that have caused general satisfaction to the company. Manager Edmunds has been pushing forward a vigorous and economical campaign of development work and the results so far have more than exceeded anticipations. It is generally believed by those who have recently visited the property that the Copper Glance will join the list of shippers before the new year has proceeded far.

Water to Run Concentrator.

Water to Run Concentrator.

Enough water has been encountered in the tunnel to run a concentrator, which the management contemplates erecting just as soon as the development work has been carried forward to the desired point.

The Day on 'Change. There were few features of the day on the local 'change Tuesday, the atmosphere that usually follows the Caristmas holiday being present with a vengeance. There was about the average dealing in stocks, with but few startling advances in prices. The total number of shares sold was 41.651, resulting in \$16,761.29 changing hands. The quotations for the day closed as follows:

Ore Shipment.s

The Pioneer Sampier reported the following receipts of ore for Tuesday. Two cars each from Tintic, Bingham and Alta. Taylor and Brunton received eighteen from Tintic, five from Bingham, two from Nevada and one from Idaho.

Ore and Bullion. The ore and builion returns for Tuesday given by McCornick's bank were as follows: Ore. \$24,700; builion, \$37,100. Silver was quoted at \$514c, copper at 1814c.

# MONEY FROM EAST COMES TO UTAH

Silver Crown Mining Property Passes Into Possession of Prominent People.

NEBRASKA AND COLORADO CAPITALISTS PURCHASE

Beaver Lake Mining District Scene of Important Deal Christmas Week.

A deal has just been consummated by several Eastern gentlemen of note in the Beaver Lake district that has every earmark of being one of the most important developments for that region during the closing year. E. E. Howard, cashler of the State bank of Edgar, Neb., and W. F. Sien of Colorado Springs have just purchased the Silver Crown group of fifteen claims in the above district, paying therefor a good round sum.

Impressed With Showings.

These gentlemen have been quietly looking over the Beaver Lake district for several days, accompanied by Mr. J. M. Reynolds of this city. The wonderful surface showings of the Silver Crown group fairly captivated these investors, and while mach Enterpresental in complex control of the company of the service of the control of the company of the compa while much Eastern capital is coming to Utah for the purpose of acquiring silver and copper prospects, these gentlemen are convinced from what they have seen that they have a veritable mine. The figures involved in the deal illustrates this most cloquently.

Mine Is a Shipper.

The Silver Crown, however, can hardly be called a youngster, as from the property the former owners have shipped several different consignments to Salt Lake. The values resulting from these shipments have amounted to \$55 net in sliver, lead and copper, and the work already done on the property has disclosed some promising bodies of ore. It is the intention of the purchasers of the property to organize under the laws of tital, and several Salt Lakers, including ah, and several Salt Lakers, inch Mr. Reynolds, will be interested

Will Organize Company.

Will Organize Company.

Messrs Howard and Sien returned to their homes Tuesday evening. They will return early in the new year for the purpose of establishing the company and beginning active operations upon the property. This purchase by these capitalists is considered of the deepest significance, and while their action will result to the good of Beaver Lake district, the riches of that region will fully compensate them for their outlay of capital. The district generally is reported as showing up finely, the results of the development work being actively carried on being entirely to the satisfaction of the mining interests there.

#### NO SORTING NEEDED.

Goldfield Ore Is Being Sacked Without Much Ceremony.

A. H. Mayne, one of Salt Lake's additions to the great camp of Goldfield, is in the city, and will probably be here for several days. Mr. Mayne reports that Goldfield is on one of the most satisfactory mining careers that well could be wished for, and that the large properties are looking exceedingly well as depth is attained. With Messrs, Loftus and Sherman, Mr.

With Messrs, Loftus and Sherman, Mr. Mayne is interested in many fine propositions in the great camp of gold the most prominent of which is the Sandstorm, that is making one of the star showings of the camp. Many of the companies are not sorting their ores, indulging in the consoling and simple method of sacking the rock without any further ceremony whatever.

#### OWNS VALUABLE MINES.

Judge Wray of Rhyolite Stops Over in Zion Tuesday.

Judge Wray of Rhyolite, one of the be nanza kings of the district of Bullfrog, is in the city for a few days. Judge Wray has the distinction of being among the very first to reach the Bullfrog country, and he has been the owner of some of the greatest properties in the camp. At the present time his holdings are extensive and exceedingly valuable. He has large interests in the Denver Tramp and Eclipse mines. These rank among the prominent properties of Bullfrog. nanza kings of the district of Bullfre

# BLACK DIAMOND MINE

Copper Values Appearing in Deeper Workings That Are Being Reached.

Superintendent David Lemmon of the Black Diamond property, who left for the mine last night, reported that the propwas looking better than ever before in the history of development work ione. The company now is diligently working along a streak of ore 31/2 feet wide on the 800-foot level that gives an average of to per cent lead. This vein is called the Hercules vein, and as a result of the work on this portion of the mine several shipments of ore have been made quite recently. Good Copper Showing.

There is a significant showing of copper in the lower depths of the mine. The company, in addition to the work on the Hercules, is doing considerable develop-ment for the purpose of exploiting the St. Patrick and King veins, and while these veins have and veins tarned on these veins have not yet been tapped on the drain tunnel level they soon will be reached by the drifts that are being dill-gently driven.

Mining Notes.

President L. Holbrock of the Victoria mine nd vice-president of the Grand Central is in the city from Provo. He reports these two di-idend-payers as being in the best of condi-

There is a general impression abroad that emething will happen soon either in or in the identity of the Beck Tunnel Con region. Ac-lyity displayed in the acquirement of sur-ounding territory is a healthy sign.

Superintendent Parley L. Williams, Jr., of se Utah Consolidated returned to the mines uerday, after spending Christmas at his home. The Joe Bowers company is cleaning up their woperty for the vigorous campaign of work thead. Recent assays have shown values from 45 to \$85. It is probable that an assessment will be levied soon to provide means of purhasing new boilers and a pump.

The Daly-Judge mill, while not grinding ore et, has been put through a course of sprouse scently for the purpose of demonstrating that verything was in readiness to resume opera-

Several properties that closed down for the process of giving their employees a chance to bend Christmas in a manner beflitting the oc-asion will start up again today. Among these re the Ajax, Emerald and Swansea. Superintendent Hall of the Mount Masonic has sent word to A. M. Spooner, the general manager, that in spite of the retarding weather conditions he expected to have the machinery in place within a short time.

## WEALTHY CHICAGOAN DIES

Father of Mrs. Marshall Field, Jr., Passes Away.

CHICAGO, Dec. 26.-Louis C. Huck, father of Mrs. Marshall Field, Jr., and one of Chicago's widely known citizens, died last night of Bright's disease. He left a widow, Mrs. Paula Huck, and six children, three of whom, Mrs. Marshall Field, Jr., and the two youngest, Louis C. Huck, Jr., aged 9 and Paula, aged 13, were at his side when he died. The three other children are Henry.

now in Texas; Freda, now residing in Cologne, the wife of Baron Komosky; and Marie, now the Marchioness Spinola, living in Italy.

The fortune of Mr. Huck was built up through the Louis C. Huck Was built up through the Louis C. Huck Malting company, which he founded in Chicago in 1870, and disposed of twenty-two years later to an English syndicate. After disposing of his malting business, he devoted himself to his real estate in-

terests, which became extensive. He was born sixty-three years ugo at Baden, Germany, and was brought to Chicago by his parents at the age of 4. His only venture in politics was his election to the position of County Treasurer and Tax Collector in 1875-77.

#### KIDNAPS LITTLE GIRL

Man Brutally Drags Little Girl With Lariat.

CLEVELAND. O. Dec. 25.—With a lariat of wild grapevine, an unknown man attempted to kidnap six-year-old Mamle Vancura while on her way from school in Newburg yesterday.

He surprised her, with two other girls, on a lonely path that leads through the woods. The child's screams were heard and a crowd of small boys gave chase, pelting the girl's assailant with stones. The child was dragged half way through the woods. The unknown was forced to let go of his victim in order to escape from his pursuers. Newburg citizens and the police searched unsuccessfully for him

the police searched unsuccessfully for him.

The little girl was unconscious when found. She was carried to the home of her parents. She became so hysterical that a physician was summoned to attend her. With such force did the man swing the lariat that a purple welt was raised on the child's neck. Her face and hands were badly cut and laccrated by the shrubbery through which she was half dragged and carried. Her dress was torn to strips.

No reason for the attempted abduction to strips.

No reason for the attempted abduction can be given by the police or family.

### INCREASE LONDON POOR

Figures Show Remarkable Amount of Relief Extended.

NEW YORK, Dec. 26 .- A cable to the Times from London says: Official figures relating to the legal poor of London show that the numbers in receipt of pauper re-lief in nearly every month of the year now ending have been greater than in any of the previous forty years comprised in the returns, with the exception of the period from 1807 to 1871. The ratio of pau-pers per 1660 of population has been high-er in most of the months of this year than in any previous year since 1874. Not only has there been a remarkable increase in outdoor relief, but the rise in the numbers entering workhouses has continued. In no year of the history of the poor law has the population in the workhouses been greater for December. that the numbers in receipt of pauper re-
